

Dimensions: 236 x 236 x 98 cm

Layout: 4 sitting positions

2 loungers

Number of jets: 47 jets

Water volume: 1650 litre

Empty weight: 400 kg

# Laura

The Laura has a unique design with two reclining positions next to one another. Both of these loungers have individual foot massage and a specific ergonomic design. The impact jet, in its largest format, provides an intense massage for the lower back or legs. The Laura is equipped with a child seat and a cool-down seat with a mild massage while you sit partially above water. Surrender to the massage of the jets under the starry sky; a perfect and relaxing way to close a busy day.
